deep

Offer quality access to visitors to your website by choosing HostPack, the professional website hosting service from DEEP. Compare our 6 turnkey HostPack plans and make your website a major business asset by selecting the package to suit your needs.

OUR SOLUTION

The HostPack service allows you to host your websites on our remote server⁽¹⁾ with storage space of between 250 MB and 50 GB and to **manage the back office of your website with an easy to use administration platform.**

The HostPack solution also includes **an interface for the creation, modification and administration of business e-mail addresses**, for 1 to 250 accounts, with storage space of 1 GB to 250 GB. What's more, your employees are given automatic access to a Webmail portal with an unlimited number of aliases and functions such as out of office replies.

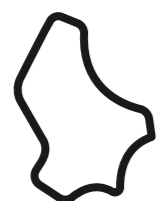

You can also manage between 1 and 30 personalised domain names and various subdomains (e.g. intranet.yourcompany.lu) and you will receive a generic domain name (e.g. mydomain.pt.lu) **free of charge.**

HostPack also gives you the option of controlling your MySQL databases (PhpMyAdmin) and development interface (html, PHP).

These elements make HostPack a complete solution for hosting and managing your website on a secure, local basis.

THE BENEFITS OF THE SOLUTION IN A NUTSHELL

You can enjoy the various benefits of our professional website hosting service by opting for one of the 6 HostPack plans.

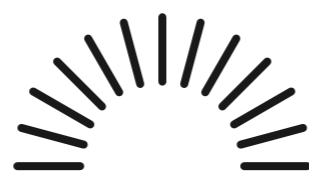

LOCAL: The HostPack solution hosts your website on high-performance remote servers⁽¹⁾ **in Luxembourg.** These servers are directly connected to the network to save you expensive equipment costs.

SECURE: Your subdirectories are password-protected, and SSL encryption prevents any misuse of your data, even when it is transferred between the server it is stored on and the device it is taken from.

LET DEEP TAKE CARE OF IT: Benefit from **permanent monitoring** of the server status and 24/7 e-mail support. Let's have a look at **real-time statistics** on the use of and visits to your website.

FAST AND FLEXIBLE: Guarantee **quick and easy access** for your visitors⁽²⁾.
